

CREAMER

Creamer From Dairy Master over 50 years

➤ Real Dairy Master over 50 years

Starting in March 1964 as Korea's first infant formula company ever, Namyang has delivered a constant range of hit products, having lead processed dairy products industry in Korea for half a century. We have pioneered infant formula in Korea, using our expertise in manufacturing milk powder to produce a highly stable, top quality creamer.

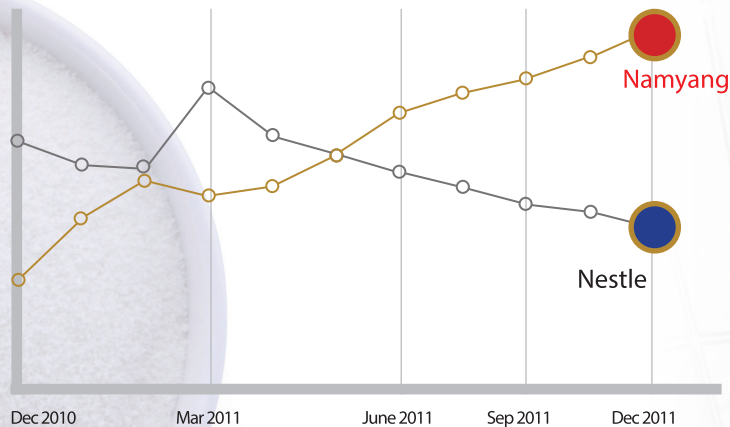

➤ Quality Control under infant formula level

Namyang is utilizing the same facility in creamer production with infant formula, which employs the most advanced MSD(Multi Stage Dryer) and Infusion Sterilization type.

This process, conducting 367 quality control guarantees that Namyang creamer is absolutely safe, stable and technologically advanced.

➤ Top Powder Know-how

Our unrivalled knowledge of infant formula means we know exactly what is required to create an authentic milk substitute. In December 2010, the company eventually invented the world's first creamer made from real non-fat milk, internationally patented. The market response to our innovation has been explosive since it is distinctive from other coffee creamer, made from food additive. With this product, Namyang out-paced Nestle in only six months and became the best seller in Korean coffee market, which is highly competitive.

NAMYANG NON DAIRY CREAMER

➤ Product Lineup

Namyang creamer covers variety of types of creamer, from general creamer to specialty creamer for our partners' extraordinary products.

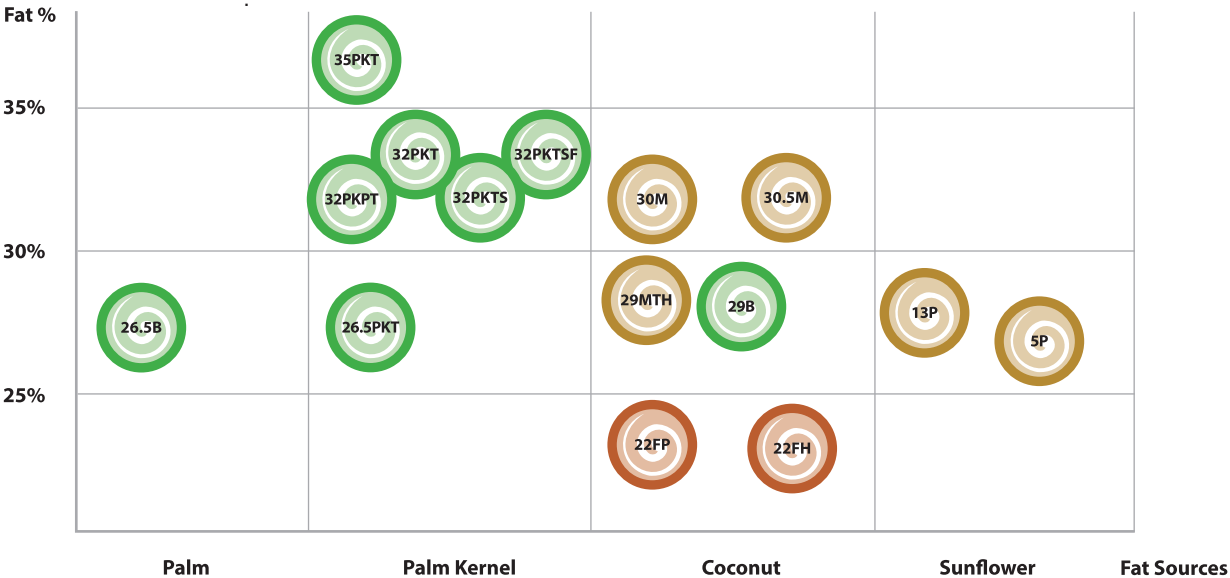

Unbeatable height and
creamy texture foam

- Creamer from Real Non-fat Milk
- Soluble in Cold water
- Substitute for Milk

The tradition and practicality
come together in the original creamer
providing milk-substitute solution.

➤ Foaming Creamer

Namyang Foaming Creamer is spray-dried emulsions with instant gas formation. These products create a beautiful and stable foam layer and can be used in foaming drinks like e.g. cappuccino and hot chocolate.

Unbeatable Foam Height

➤ Specialty Creamer

Specialty creamer is intensively applied by Namyang's patent technology.

CREMER FROM REAL NON-FAT MILK

Unique invention of Namyang, made from real non-fat milk, natural milk taste and flavor that you've never expected to get from typical creamer. Healthier choice with no need of artificial milk flavor or sodium caseinate. Adopted own FMF Technology, eliminates off-flavor and reproduces just-made hot Latte taste even in the powder form.

* Item : 29MTH, 30M, 30.5M

SOLUBLE IN COLD WATER

We have developed a highly soluble creamer with our advanced technology and research process. You can enjoy creamy milk taste in cold beverages, too!

* Item : 5P, 13P

SUBSTITUTE FOR MILK

Namyang, a dairy company with accumulated know-how of over 50 years, provides you a perfect substitute for milk.
